

St. Louis Children's Hospital Flu Vaccination Requirements 9.27.2024

In guidance with the host hospital, the Ronald McDonald Family Room abides by the hospital's flu vaccination requirements.

- Documentation for flu vaccination is to be emailed or physically delivered to the SLCH Volunteer Services
 - Flu vaccination documentation must contain TWO unique identifiers (e.g., name and date of birth).
 - PDF file via email or bring a physical copy to their office.
- **Final date for documentation for flu vaccination is November 18, 2024** (but please send it in before!)
- If you do not send your documentation prior to November 18, your SLCH volunteer profile will become inactive and you will not be allowed to volunteer until it is submitted.
- SLCH Volunteer Services has reached out to Occupational Health to see if they will provide flu shots to volunteers, and they will keep you posted once they hear more.
